Who We Are

Fruity Chutes is a world leader in the manufacturing of recovery systems for small to midsize UAV, RC, Quadcopter, Drone and Rocket parachute recovery. We provide recovery systems to many of the top UAS manufacturers including Quest UAV, Aeromao, PST Jets and more. Many US and EU aerospace companies are working with our products integrating them into their UAS products. Our top priority is to work with manufacturers and to help provide them with our world class recovery systems.

Hi Gene, Just wanted to let you know that I got the parachutes today and I must say...WOW! I am impressed! I expected that they would be nice; I had no idea that they would be THIS nice! I am way more than just pleased and thought you should know!
- Cameron Tinder

Peregrine Integrated CO2 Deployment System

UAS Parachute Deployment Bundles

We not only make the parachute, we provide the complete deployment system! We have UAS recovery bundles designed for specific types of UAS:

- **Fixed Wing Recovery Bundle** – We offer 11 bundles suitable for UAS from 1.8Kg up to 51Kg or more.
- **Multirotor Active Deployment** – We have Spring systems for small UAS, and CO2 systems for larger systems.
- **Peregrine Integrated Deployment Systems (PIDS)** – This system features pressure packed parachute canister and CO2 deployment.
